

MEDIEVIA

Command Quick-sheet for New Players

Intro

This is a brief guide to common commands you will need on Medievia. Not all the commands are listed here, so check the HELP files on anything you're not sure about. There are help topics on every command listed here. Just type HELP <command> (ex. HELP RECALL) to get more information. The LEARN lessons have been created in-game to help you learn various features and commands. Be sure to go through all of them (there are some goodies along the way). If you need further help, feel free to ask on the newbie clan channel. Any word in **BOLD** letters has an associated help file in Medievia.

Movement

N, E, S, W, U, D	Move in the direction specified
RECALL (until lvl 15)	Go to the center of Medievia City
